

THE HALL OF FAME OF THE TROFEO DELLE INDUSTRIE IS GETTING MORE AND MORE PRECIOUS

The six Champions of edition 53 are: Pizzonia (OKJ), Bertuca (KZ2), Marchesi (OK-N), Kostrzewa (OK-NJ), Ratajski (MINI Gr.3) and Stec (MINI U10).

The 53rd edition has enriched the hall of fame of the Trofeo delle Industrie with more important protagonists. The event, organized by Parma Motorsport, achieved another significant success in participation this year with 280 entries from 41 nations.

Driver participation included not only nations from all over Europe, but also from other continents, such as Argentina, Brazil, Japan, Mexico, New Zealand, Taiwan, Thailand, Turkey, the Arab Emirates, and the United States.

The most represented nation was Germany with 20 drivers, while the team with the highest number of competitors was Team Driver Racing Kart with 18 drivers.

The new Champions in the six categories of the 53rd Trofeo delle Industrie are Cristian Bertuca (KZ2), Antonio Pizzonia (OKJ and overall winner), Nicolas Marchesi (OK-N), Blazej Kostrzewa (OK-NJ), Stan Ratajski (MINI Gr.3) and Filip Stec (MINI U10).

KZ2 Cristian Bertuca. Cristian Bertuca (KCS-Birelart/TM Kart/Vega) secured the victory once again in KZ2, achieving his second consecutive win after his triumph last year. Having already won the Trofeo Andrea Margutti for the last two years, Bertuca successfully scored a double victory in the Trofeo delle Industrie as well. With his triumph at the 53rd Trofeo delle Industrie, Bertuca has completed a series of winning performances in this final part of the season, confirming him as one of the most competitive drivers at an international level.

OKJ Antonio Pizzonia. Antonio Pizzonia, the son of the former Brazilian driver of Italian origin, secured his first victory in the international OKJ category, racing with the Ward Racing team on Tony Kart/TM Kart/Vega. He was also the overall winner of the 2025 Trofeo delle Industrie, thanks to his double victory in the Prefinal and the Final, which also earned him the Memorial Carlo Fabi Trophy.

OK-N Nicolas Marchesi. Nicolas Marchesi, racing with Team Driver on KR/lame/MG, proved to be one of the main protagonists of the season and shone brightly at this Trofeo delle Industrie as well. He managed to secure the win, capitalizing on the retirement of Riccardo Ferrari (M2 Racing-Gillard/TM Kart) and the penalty assigned to Federico Rossi (AKM Motorsport-Parolin/TM Kart) for his misplaced front spoiler. However, the reward for his competitiveness is fully deserved.

OK-NJ Blazej Kostrzewa. The young Blazej Kostrzewa, with Ward Racing on Tony Kart/TM Kart/MG, gave a demonstration of how important it is to believe in the result. In the category

reserved for rising talents, the Polish driver managed to recover from a very difficult situation following a poor result in qualifying. He initially completed a strong comeback in the heats, making up 20 positions in two different races. He then won the Prefinal with another comeback of 10 positions, before going on to dominate the Final. Hats off!

MINI Gr.3 Stan Ratajski. Everything went smoothly for the French driver Stan Ratajski (BabyRace-Parolin/lame/MG), who stood out right from qualifying, going on to win all three heats. He ended second in the Prefinal, but then executed a winning battle in the Final, despite being closely chased by his opponents. Having already been strong in international races since last year, Stan Ratajski perfectly crowned his 2025 season with this success at the Trofeo delle Industrie.

MINI U10 Filip Stec. The 53rd Trofeo delle Industrie saw another Polish driver claim the honours: the very young Filip Stec (Energy Corse-Energy/lame/MG), who managed to prevail over his teammate, Guido Ebergenyl. Both drivers were at the forefront throughout the entire Lonato weekend. In the final showdown, Stec managed to come out on top, demonstrating greater competitiveness precisely in the closing stages of the Final.
